Ensemble Business Software Announces New RMA Module

Beavercreek, Oregon – June 24, 2007 – Ensemble Business Software, a provider of ERP solutions for the apparel and footwear market, today announced that Sage Software's MAS 90 and MAS 200 Return Merchandise Authorization module has been enhanced to allow returns processing of matrix inventory items. The data entry functions available through the Return Merchandise Authorization module allow you to enter return merchandise authorizations (RMAs), generate documents, receive returned items from a customer, and ship replacement or repair items.

About Ensemble Business Software

Founded in 1987, Ensemble Business Software, Inc. is a Sage Software Authorized Partner dedicated exclusively to the apparel, footwear and soft goods market. Ensemble offers a coordinated line of solutions that feature seamless integration of industry specific features with the world class accounting functionality of MAS 90 and MAS 200 ERP Software. Ensemble works directly with clients throughout North America offering flexible and comprehensive solutions that may be configured for distribution, importing, warehousing, supply chain management, e-Commerce, electronic data interchange (EDI), manufacturing, screen printing and embroidery. For product information contact an Ensemble Sales Consultant at 503-632-1820 Ext. 1828 or visit www.ensembleware.com.
